INTRODUCTION

TO PART II. OF VOL. I.

The first part of this volume of Court Leet Records contained transcriptions of the ten books which survive from the period 1550-1577. This second part carries on the publication to the end of Queen Elizabeth's reign; it presents the contents of the thirteen books which remain out of the twenty-five written between the years 1578 and 1603.

One of the most interesting pieces of new information which these books bring to light is the fact that the "Sitting of the Jury" was not completed on the Lawday, but lasted for several weeks, in one case apparently till Whitsuntide (Cf. 1580: note at end of book). During this protracted sitting the Jurors had to go round the town testing weights and measures (Cf. 1601, § 66), gathering information concerning players of unlawful games (Cf. 1580, § 84), and so on. Thus during their sitting in 1579 (§ 82) they "found divers artificers at bowles." The next year they report, "One day in the tyme of our sytting, walking in the orchard, we found playing ther these persons" (1580, § 84). In 1582 (§ 105) they actually give a date, and speak of "this our sitting the 28th day of this moneth of may," a day it will be noted no less than seven weeks after the Lawday of that year (April 8th). Further evidence on this important point will be found in 1589, §§ 2 and 81; 1590, § 16; and 1596, § 91.

Another curiosity is that the Mayor before whom the Court was nominally being held was in 1579 absent, while in 1590 he had actually been dead for four months.

Numerous entries convey the impression that the town was passing through a period of great adversity during this period—the quays were decayed, the walls and towers in ruins, the streets unpaved.

A good deal of light, also, is thrown upon the mercantile ideas of the burgesses of Southampton. We can see in full operation the principles of protection, applied not to national

but to municipal industry and commerce. The export of raw materials was objected to (Cf. 1579, § 5, 1589, § 2); trading by non-burgesses was interdicted (1589, § 79); the taking of foreign children as apprentices was complained of (1582, § 20). All burgesses claimed the right to share in bargains (1587, § 83), while on the other hand members of one trade were not to encroach upon the province of another trade (1581, § 82).

The orders for the drivers of the Common are given at length in 1581, § 117; incidentally from 1589, § 94, we learn the number of householders which Southampton contained at that date; while in 1596 the bounds are for the first time enumerated (§ 92).

(Cf. 1596, § 31).

92.—The Perambulation of the Bounds.

"Item vppon consideration taken of the p^re^sent suite and Controversie attempted against the Corporation of this Towne by m^r.^ Whithead as yet dependinge vndescided in her ma^jestie^s Courte of Wardes & liveries in that he seemeth to laye Challenge vnto all or the most p^ar^te of the Comon pasture belonginge to vs & others theinhabitants Leadinge vpp w^th^in o^r^ liberties & p^er^ambulacon towards Cutthorne, as yet tyme out of memorie ev^er^ enjoyed, held & occupied by the Inhabitants of Suthampton w^th^out any lawfull Challenge or impeachin, we have thought good by these o^r^ p^re^sentm^ents^ to make knowne & p^re^sent vnto yor good Considerations that this p^re^sent p^er^ambulacon Contayninge the Lymits & bounds of our Circuite and franchisse is the verie true and p^re^sent p^er^ambulacon of the bounds and Circuits of the liberties & fraunchises of auntient tyme belonginge & app^er^tayninge to the said Towne of Suthampton, To the contrarie wherof we nether doe knowe or have at anie tyme heard, the wch p^er^ambulacon hereafter followeth verbatim viz.

[1] (Cf. 1601, § 45).

[1] The dispute between the Corporation and Mr. Whitehead seems to have had reference to the western boundary of the town liberties, viz., the village of Hill, the Friar's Conduit, and Banister's Court (see Davies's Southampton, pp. 42-3). This enumeration of the boundary marks appears to have been taken from the "Book of Remembrances," A.D. 1488. Earlier enumerations are given in the Black Book, A.D. 1467, and in the Oak Book, A.D. 1254.

[2] These basketfuls of earth were to be used in case of fire.

[1] The Town in 1600 secured Letters Patent from Queen Elizabeth granting three fairs, in addition to the ancient Chapel or Trinity fair. They were to be held as follows:

1. Three Days beginning on the Tuesday before Shrove Sunday, *i.e.*, eight days before Lent.
2. Three Days beginning on St. Mark's day, *i.e.* April 25th.
3. Three Days beginning on the Tuesday after St. Andrew's day (November 30th).
